Multiple Teacher Licensing

When licensing for more than one teacher, each teacher involved is required to purchase one set of parts which can be copied for that teachers licensed schools. The schools of an individual teacher are listed at the bottom of all printed pages. The teacher must also sign and return to Companion Music the User's Contract. The User's Contract makes provisions for future use of The Companion Music Folder as a teacher's assigned schools are modified.

Attention County or District Music Coordinators

Licensing for an Entire School District

Coordinators/Supervisors can license for an entire county or school district. For 20-40 schools the discount for licensing become the same figure as the number of schools. Thus 20 schools would = a 20% discount, 40 schools = 40%. For School Systems totaling more than 50 schools (Elementary & Middle Schools) the discount becomes 50 % as long as ALL elementary and middle schools are included. Thus only \$15 per school! A list of schools must be attached.
